

# Stainless Steel Hose Reels

AVAILABLE IN: **SPRING DRIVEN**  
**HAND CRANK**

## SS SERIES

**COXREELS® SS Series "Stainless Steel" hand crank and spring driven hose reels have similar features to their related series, but are constructed of high quality electro-polished stainless steel with stainless steel fluid paths.** They offer clean, non-corrosive performance in applications that require it, such as food and chemical processing, marinas, and anywhere that rust, corrosion and contamination thrive.
