HOSE, CORD & CABLE REELS

MINING REELS

Hose, cord, and cable reels are essential to tackle the tough work in jobs found in the mining industry. Reels are the preferred choice for managing hoses or neatly and conveniently storing them.

The Recognized Industry Leader

Coxreels is wholesale only since 1923. Our product is made to high standards, supplying industrial grade product to distributors and OEMs worldwide. We are recognized as the leader in the reeling industry. We have been providing the most complete and diverse line of hose, cord, and cable reels for 10 decades!

The Most Complete Line of Mining Reels in the Market

Mining workers cannot expect less out of the reels they so heavily rely on. Whether you are minining underground, underwater, or above ground—we got you covered!

Our reels are innovatively designed & built stout right here in the USA to withstand the demanding harsh environments found in the mining area. Let's face it, equipment & reels are exposed to outdoor conditions, chemicals, & take some reasonable abuse in mining applications. To ensure no downtime in your operations, reliability & durability are demanded out of every piece of equipment. COXREELS® renowned quality meets those challenges with flying colors!

Proven reeling solutions to mining needs!

We have reels for any conceivable application. The common applications we have identified on mining site, trucks, mixers and more include, but are not limited to:

- Pneumatic, hydraulic, and power tools
- High volume fluid delivery
- Diesel refuelling
- Waste oil evacuation
- Servicing heavy off-road equipment
- Air/Water lines
- Paving / sealcoating
- Fueling & DEF
- Welding (Arc / Gas)

Our versatile and wide reel selection handles various capacities and comes in different sizes to suit any construction requirement. Our standard reeling devices suggested in this catalog are already specified to meet the needs of the construction markets. Coxreels also has the engineering power to design and build custom reels, so please consult the factory if you cannot locate a reel that will work with your equipment, we will be happy to assist you with a solution.

VALUE THE DIFFERENCE...

Make COXREELS your reel choice!

PROFESSIONAL GRADE FEATURES

A HIGHER LEVEL OF STANDARDS

(Klein

CPC™ POWDER COAT

Our blue powder coat finish is long lasting, chip resistant & rust inhibiting

BRASS SWIVEL

External fluid path, machined from solid brass, full flow, swivel for simple seal maintenance

STEEL AXLE

1" solid steel axle & lubricated bearings for extra strength & durability. Not a hollow tube & no fluid travels through it

STEEL CONSTRUCTION

High-Quality steel construction provides superior strenght and durability for heavy-duty applications in commercial and industrial settings

COMPONENT COVER

External CPC powder coated steel components cover for simple slip ring routine maintenance

EZ-COIL® SERIES

A patented safety system that retracts up to 80% slower than conventional reels

CNC SPUN DISCS

All steel rolled edges & ribbed discs for added safety, strength & durability

CARTRIDGE MOTOR

Enclosed factory tuned & matched cartridge style motor for safe & easy replacement

LOW PROFILE RISER

Low profile riser with open drum slot allows for smooth even hose wraps that will not pinch or bind your hose. **NO HUMP!**

ALL WELDED STEEL
"A" FRAME

All welded steel "A" frame for strength & durability. **NOT BOLTED!**

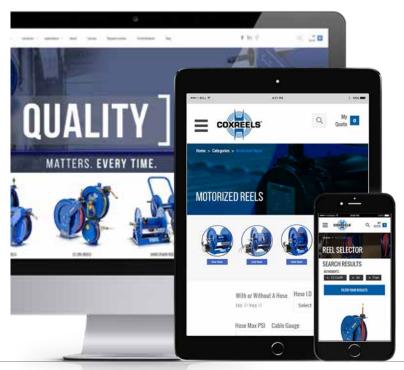

2 YEAR WARRANTY

Coxreels proudly stands behind our reels as they are built to last!

USA MADE, QUALITY & SUPPORT

We take great pride in designing, building & supplying the world's finest reels made right here in the U.S.A.

VISIT US ONLINE

Coxreels is committed to providing our customers with the ultimate online experience as they navigate through the most complete and diverse line of hose, cord, and cable reels.

We hope that you enjoy the fresh look and feel of our updated website and find that this portal serves as a valuable resource for you!

SH, MP & HP SERIES HEAVY DUTY HOSE REELS

COXREELS® SH Series "Super Hub™" spring driven hose reels, like the P Series, have a long history of dependable performance. The larger chassis and frame accommodate longer lengths and larger diameters of hose. Coxreels' original Super Hub™ dual axle support system increases the stability during operation, reduces vibration and strengthens the structural integrity of the reel.

ORDER E7-COIL® MODELS

EZ-Coil® is a patented controlled retraction technology offered exclusively on Coxreels' Safety Series reels. It retracts up to 80% slower than conventional reels, resulting in workplace safety. protection from injury & costly property damage.

UPGRADE TO SOLID ROLLERS

Heavy duty machined from solid plastic rollers.

UPGRADE'TO NITRILE'OR RUBBER HOSE /////

NITRILE HOSE: Premium high quality, oil resistant, multi-purpose hose. The high tensile spiral synthetic yarn reinforcement provides excellent kink resistance. Temperature range: -20° F to +212° F.

SYNTHETIC RUBBER HOSE: Versatile general purpose hose. The synthetic rubber tube and cover resists heat sunlight, ozone, and weathering. Temperature range -40° F to +212° F

ADDAIR TOOL KIT

BEND RESTRICTOR: Designed to limit the degree of bending without compromising the integrity of the hose assembly while also preventing the hose-end from kinking, excessive wearing, and tearing. Available for low pressure models.

QUICK DISCONNECT: Quick disconnect couplings tread onto end of hose fitting to provide fast, leak-proof connections for low pressure hose lines.

UPGRADE TO STAINLESS STEEL SWIVEL

Based on the upgraded medium pressure swivel, the stainless steel swivel is machined from solid 316 stainless steel and features increased wall thicknesses with upgraded seals and backup rings.

ADD BEND RESTRICTOR

Designed to limit the degree of bending without compromising the integrity of the hose assembly while also preventing the hose-end from kinking, excessive wearing, and tearing. Available for low pressure models

SUPREME DUTY HOSE REELS

T SERIES

COXREELS® T Series "Truck Mount" spring driven hose reels are the toughest hose reels in the spring driven line. The extra large chassis with dual pedestal-style arms and Coxreels' Super Hub™ provides triple axle support while reducing vibration and strengthening the structural integrity of the reel. Making it perfect for on and off-road applications that demand reliability in the most abusive and demanding environments.

EXTREME DUTY SERIES

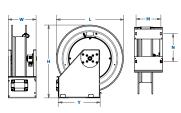

COXREELS® XTM "Extreme Duty" Series is designed for high demand industries requiring a level of construction above truck duty. Built with mining, off-road, heavy equipment, and heavy equipment lubrication in mind, the XTM series features the most robust offerings of the reel industry. This series is the combination of all the heavy duty features available inside a solid all-welded box frame, with an integral roller bracket, focused to deliver the toughest reel for the toughest environments and applications.

UPGRADE TO NITRILE OR RUBBER HOSE

NITRILE HOSE: Premium high quality, oil resistant, multi-purpose hose. The high tensile spiral synthetic yarn reinforcement provides excellent kink resistance. Temperature range: -20° F to +212° F.

SYNTHETIC RUBBER HOSE: Versatile general purpose hose. The synthetic rubber tube and cover resists heat, sunlight, ozone, and weathering. Temperature range -40° F to +212° F

UPGRADE TO STAINLESS STEEL SWIVEL

STAINLESS STEEL CAPTIVE BEARING SWIVEL / STAINLESS STEEL IN-LINE SWIVEL: the stainless steel swivel is machined from solid 304 stainless steel for increased corrosion resistance. These optional stainless steel swivel are available for 11/4" and 11/2" models.

ADDITIONAL MOUNTING PATTERNS

"BXIX": Ceiling Mount. Use for stretch, recover, or lift.

"BXCX": Wall Mount Use for lift.

LIFT With Roller Guide

STATIC DISCHARGE CABLE REELS

COXREELS® SD Series "Static Discharge" cable reels are built heavy duty and designed for long lasting performance. They are specifically designed to be used in combustible environments where the static buildup could ignite a spark and subsequent explosion. Static discharge or grounding reels are commonly paired with fuel hose reels.

SD & SDH SERIES: REEL SPECIFICATIONS

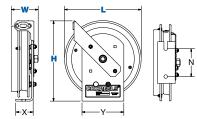

STATIC DISCHARGE

- Available with 7 strand x 7 wire galvanized steel or stainless steel 3/32" cable
- High visibility orange vinyl cable cover (0.D.= 5/32" with cable cover)
- Includes cable, ball stop & 50 Amp grounding clamp (100 Amp copper grounding clamp available, consult factory)

DESIGN & STRUCTURE

- Compact static discharge cable reel available in spring rewind or direct hand crank retraction
- Commonly paired with fuel reels & used in combustible environment for grounding purposes
- · Guide arm adjusts to wall, floor, vehicle & overhead positions
- \bullet Solid one piece, heavy gauge $^{1\!/\!4}$ steel base for maximum stability
- 1" solid steel axle & lubricated precision bearings for smooth rotation
- · Bottom of base is not powder coated to ground reel
- Controlled retraction speed up to 80% slower on
- · Enclosed factory tuned & matched cartridge-style spring motor
- Non corrosive stainless steel spring, pawl & zinc plated ratchet
- Multi-position non-sparking lock ratchet mechanism secures cable at desired length

ORDER EX-COIL® MODELS

EZ-Coil® is a patented controlled retraction technology offered exclusively on Coxreels' Safety Series reels. It retracts up to 80% slower than conventional reels, resulting in workplace safety, protection from injury & costly property damage.

ORDER DOUBLE CLAMP

Heavy duty clamps made from zinc plated steel. Both clamps are rated for 50 amp. Each has a jaw opening of 1.06" and a steel spring.

ORDER 100 AMP CLAMP

Heavy duty copper clamp designed for heavy grounding requirements. It has a jaw opening of 1.06" and a steel spring.

SPRING DRIVEN DEF HOSE REELS

DEF SERIES

COXREELS® DEF Series are equipped with a stainless steel external full-flow swivel and chemical resistant Viton® seals to provide a safe, reliable Diesel Exhaust Fluid (DEF) dispensing solution. The swivel is easy to access for simple seal maintenance and fast DEF dispenser hose installation. Coxreels® professional DEF reeling systems are available in heavy-duty single pedestal (SH Series) or supreme-duty dual pedestal (T Series) configurations. Both versatile designs are outfitted with Coxreels' original Super Hub™ dual axle support systems to increase stability and reduce vibration during operation, making these reels the perfect DEF handling solutions for either stationary or rugged mobile applications.

UPGRADE'TO SOLID ROLLERS

Heavy duty machined from solid plastic rollers. Only for T Series 1/2" models and SH Series.

FUEL SERIES

SPRING DRIVEN FUEL HOSE REELS

COXREELS® Fuel Dispensing Reels are designed to handle various non-aromatic fuel applications including diesel, kerosene, fuel oil and heating oil. Coxreels® professional fuel dispensing reels are available in heavy-duty single pedestal (SH Series), supreme-duty dual pedestal (T Series) or box-style frame (SP Series) configurations. These fuel reels are an essential component found in utility, ground support, and bulk liquid handling transport services mounted on fuel storage & dispensing systems, fuel/lube trucks, aircraft refuelers, and tank trucks. The convenient uncoiling systems with the added hose control allow the operator to efficiently handle fuel transfers.

TOP REQUESTED UPGRADES & ACCESSORIES

SEE PAGE 13 FOR ADDITIONAL ACCESSORIES

ADD ROLLERS

4-WAY ROLLERS: 4-way enclosed pinch-proof stainless steel rollers are 1 in diameter supported by powder coated steel brackets.

3-WAY ROLLERS: 3-way open spool roller assembly with 1.5 chrome-plated machined steel spools & 1.5 stainless steel tubing bottom roller & powder coated steel brackets.

ADD UNIVERSAL ROLLERS ////

4-WAY ROLLERS: 4-way enclosed pinch-proof stainless steel rollers are 1° in diameter.

3-WAY ROLLERS: 3-way open spool roller assembly with 1.5" chrome-plated machined steel spools and 1.5" stainless steel

Rollers mounted on universal bracket with 4 various positions $0^\circ,\,30^\circ,\,60^\circ,\,90^\circ.$ Made from steel, powder coat black.

UPGRADE'TO STAINLESS STEEL

STAINLESS STEEL CAPTIVE BEARING SWIVEL: Featuring heavy duty ball bearings for smooth rotation and increased side load capabilities, the stainless steel swivel is machined from solid 304 stainless steel for increased corrosion resistance.

STAINLESS STEEL FLUID PATH: This options uses the same swivel as described in the stainless steel swivel upgrade and couples it to a upgraded 304 stainless steel plumbing axle to improve the corrosion resistance of the entire fluid path.

IDVER GEARS AVAILABLE

Reduce drum speed & increase torque. Available in three sizes: 1:2 ratio, 1:3 ratio, and 1:4 ratio, they are factory installed on the motor kits.

Brass Swivels

CNC machined from solid brass wivels are built for general multi-purpose applications. Configured in a 90 degree fluid path with full flow designed. Working pressure up to 3000 PSI & -40°F

Zinc Plated Steel Swivels

Machined from strong low carbon steel and configured in a 90 degree fluid path with full flow designed. Zinc plated steel swivels are recommended for non-corrosive applications. Working pressure up to 5000 PSI & -40°F to 400°F*.

Electroless Nickel Plated Steel Swivels

Machined from strong low carbon steel and configured in a 90 degree fluid path with full flow designed. Nickel plated steel swivels are recommended for mildly corrosive applications. Working pressure up to 4000 PSI & -40°F to 400°F*

REEL SERIES

Stainless Steel Swivels

Machined from high quality, pure 316 stainless steel and configured in a 90 degree fluid path with full flow design. Stainless steel swivels offer superior corrosion protection. Working pressure up to 5000 PSI & -40°F to 400°F*.

HOSE STOPS

In-line Swivels

Nickel plated steel or stainless steel Notice plated steel of stallness steel swivel configured in an in-line fluid path with full flow design. Working pressure up to 1,500 PSI for 11/2" I.D. & 1,000 PSI for 2" I.D. -40°F to 400°F*.

Melonized Steel Swivels

Configured in a 90 degree fluid path with 1/4" ports, melonized steel swivels are used for hydraulic applications. Working pressure up to 10,000 psi & -5°F to 400°F*.

*Temperature rating depends on the seal type selected

CUSTOMIZE YOUR REEL FROM CONCEPT TO COMPLETION

CUSTOMIZE YOUR REEL WITH COXREELS CUSTOM PRODUCTS:

Our engineering capabilities and manufacturing processes allow us to design and build top quality products for any conceivable application where reels are needed.

- Customize fluid paths/axles or create custom brackets, mounts, and accessories.
- Integrate with your specific hardware, systems, or devices.
- . Modify drums, add divider disks, manipulate openings, or integrate hose handling devices.
- . Combine features of various reel model lines, creating your own hybrid reel.
- Create custom retraction systems.
- Increase temperature and pressure capabilities, or multiply
- The possibilities are only limited by your imagination!

POWDER COAT OPTIONS*

3 digit suffix for spring driven or 4 digit suffix for hand crank & motorized models.

-RXX or -RXXX Red

-GXX or -GXXX Grav

-KXX or -KXXX Gloss Black

-CXX or -CXXX Crinkle Black

-WXX or -WXXX White

-NXX or -NXXX Green

*Minimum quantity & or dollar amount may apply

SAFETY REWIND SYSTEM

EZ-Coil® is a patented controlled retraction technology offered exclusively on Coxreels' Safety Series reels. EZ-Coil® retracts up to 80% slower than conventional reels, resulting in workplace safety, protection from injury & costly property damage.

NOBODY SHOULD BE WITHOUT EZ-COIL®!

ised on an independent evaluation performed by COXREELS. Dending on certain conditions, results may vary.

SAFETY FIRST A

NOTE: All designs, specifications, and dimensional data contained in this book are subject to change without notice. No additional warranties, express or implied, including warranties of merchantability for fitness for a particular purpose, are created by the descriptions and depictions of the products on in this book.

All reels will carry the following warning

Parts and components will carry warning labels relative to the respective materials used.
